### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Abstract, line 2, replace "comprises" with –includes–.

Delete non-elected claims 11-14, 20, and 21.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches the process of purifying a solid tea extract concentrate using the particular degree of concentration as claimed wherein same is treated with a particular amount of ethanol/water followed by a second treatment comprising the addition of more ethanol or water wherein precipitates are formed and separated by distilling off the ethanol/water solvent. The closest prior art of record, JP 46-39058, does disclose extraction of tea leaves with water/ethanol but only in one step; moreover, same fails to teach treatment of a concentrated extract of tea with ethanol/water wherein tea leaves have previously already been extracted and the extract is previously concentrated. There would be no reason to further treat the tea extract of JP 46-39058 by further concentrating and treatment to purify same and, moreover, using two further steps of extraction. The prior art of record is further silent regarding the specific ratios of ethanol and water used in treating not only the

concentrated tea extract solid but also the solid caffeine-containing composition of, for example, claim 2. JP 46-39058 treats tea leaves, and it cannot be stated that such a solid caffeine-containing catechin composition is dissolved in a mixture including ethanol as called for in instant claim 2, for example.

The rejection under 35 USC 112, first paragraph has been withdrawn due to the amendment of the claims exchanging the order of processing steps. In addition, the provisional double patenting rejection over US 10/581200 has been withdrawn as the instant application has an earlier effective filing date. This is permitted in MPEP 804 and as outlined by Applicant in the response filed 9/10/10 (page 22).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Weier whose telephone number is 571-272-1409. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Keith Hendricks can be reached on 571-272-1401. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
